I am writing to oppose this application for the planned redevelopment of Murphy's Yard in Kentish Town. The high rise buildings will change the character that this part of Kentish town has managed to retain with its present view of a historic link to a rural past. Surely a plan less transformative ie low build and less dense could be considered. As a resident of Kentish Town I am saddened by the gradual decline of Kentish Town Road as an interesting, vibrant and attractive high street and this last proposed intensely urban view as you reach the top will only reinforce this. Please reconsider and rethink.
