Subject: Objection to 2022/04/19/T

To whom it may concern,

With regards to the trees at 8 Doughty Street near the Egyptian Exploration Society, I would like to object to the plan to fell them. The trees are an integral part of our neighborhood, and there are other options to ensure they can continue to co-exist with our built environment. I understand that there is already an effort to explore those options, and I believe we should allow those options to be fully explored and assessed before taking such a drastic and irreversible decision.

Best,

Jason Eis

33 Doughty St.
