**Subject:** Application No: 2021/32225/P

Good afternoon.

I am writing to firmly object to the above planning application and request for you to reject it. I originally moved to Kentish Town to be near Hampstead Heath and I am now in walking distance from it. Looking across to the view of the heath at the bottom of Leighton Road lifts my spirit especially more so now in these difficult times we are in.

A few years ago I stood to lose the view from a window at the top of our house of the post office tower. When the application moved to the appeal stage the appeals officer came and viewed the post office tower from our window and explained that the proposed development would prevent us enjoying an amenity. This development was at the time rejected. I don't know whether loss of amenity is still something which is taken into consideration in a planning application but I sincerely hope it is. If so this present application would deny numerous amount of people to view the Heath.

Kind regards  
Jon Hall
