Subject: Application ref: 2022/0419/T

Dear Sir/Madam,

In reference to your letter of application for cutting down trees covered by a TPO at
8 Doughty Street, WC1N2PL

I am writing to strongly object to these plans as these trees provide a sanctuary for wildlife from squirrels to birds in this area and contribute to cleaner air in this densely populated part of Camden.

As the Tree Preservation Order was issued we were reassured that these old plane trees can be saved and there must be a different solution to building works in the mews.

Experts have not established how the roots are affecting a string of mews houses facing our gardens and it seems too drastic to remove these valuable trees in a conservation area.

Yours sincerely,

Monika Morawietz

Resident at 8 Doughty Street
