## Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

### Description

Please describe details of the proposed development or works including any change of use

Minor alteration to the approved roof extension.

The proposal is to utilise the roof space further to create a "full" dormer type. The building is not in a conservation area and not listed.

The application does not alter the front elevation that has already been approved. The application focuses on the rear aspect of the building. The first three houses in the cul-de-sac are three levels high with a roof terrace. All dormers are full dormers, and this application is simply to replicate the other houses and the adjoining house which had planning already approved in the past.

The extension was designed to integrate the applications that had been approved to the rear with further minor alteration to make the buildings to blend with the general elevation proportions of the buildings. The extension will be built with slates and sash windows.

In the past most dormer conversion had to leave a gap revealing the old roof shape and this what was approved. As the council has moved away from this old approach and have granted other houses on the road and in the borough planning consent for a full roof extension, this application seeks the same.

In summary, the extension is modest in terms of its' overall scale. It is subservient in appearance and respects the character and integrity of the host building. The extension will have no impact to the neighbours. The extensions will be hardly visible.

Has the work or change of use already started?

- ☒ Yes
