Subject: Save the trees 2022/0419T

Dear Sir or Madam

I'm writing to register my objection against the proposed removal of these two old trees in the neighborhood.

Even as a newly moved resident of this neighborhood, it is difficult to not recognize the significant positive effect of such green species bringing on our urban fabric, visually and environmentally. Not least to mention the benefit that those tree can bring to the wildlife.

The owner will just need to pay for structural work rather than a whole neighbourhood losing quarter of a million leaves each of which cleans our air is home to many birds, insects and bees and other wildlife.

Kind Regards,

Shidi Fu and Sophie Wehtje
