Subject: Objection 2022/0419/T

To whom it concerns,

I live in Flat 3, 21 John St. My entire aspect / view is of these beautiful majestic trees.

I would implore Camden Council to desist from any attempt to remove or destroy these trees.

Our entire future depends on our ability to live with nature and not destroy it.

I am dumfounded that the EES which is all about the preservation of history is complicit in this destruction.

I would implore you to look at all other options. I strongly feel that the destruction of these trees would be a huge mistake.

Yours sincerely,

Gary Henshaw
