Subject: OBJECTION to planning ref: 2022/0419T

Dear Planning Dept

I am writing to express my strong objection to the application for the removal of two plane trees in my neighbourhood of Millman St/Doughty Mews in Bloomsbury WC1

My flat is in Shan House a sheltered accommodation block that benefits from the peace and quiet of the gardens and mews behind.

The cutting down of these trees represents a thoughtless move by property owners

with no regard for others in the neighbourhood.

Apart from the environmental impact on humans of losing 2 ancient plane trees that are beneficial for air quality

there are many birds and wildlife that would also be affected.

Central London is being stripped of any nature so the cutting down of these trees would be a retrograde step

for the improvement of living standards for the many people and children of this neighbourhood.

Yours sincerely  
Richard H. Smith

Flat 15 Shan House  
52-58 Millman St  
LONDON
