2021/5946/P	Jenny West	28/02/2022 14:58:46	APP	It is hard to believe that this is the 3rd time that I have put in an objection to the antennae being requested on the top of Haddo House Not only will they look top heavy and totally out of keeping with this iconic build but there is as yet no real homework done about the health implications to the public Surrounded as we are in Lissenden Gardens by 3 secondary schools and 1 primary School just along the road .I hope that Camden Council will disallow this request once and for all and demand the use commercial buildings instead
