2021/6021/P	sylvaine and Akshay Krishnan	03/03/2022 16:55:46	COMMNT	<p>We support the proposal based on our understanding that:</p> <ul style="list-style-type: none">- it will be subject to party wall agreement with our building (25 Buckland crescent), based on surveyor's report provided by the party requesting the extension.- the extension will be no higher and no longer than the 25a rear garden extension
2021/6021/P	Bart Vanneste	03/03/2022 12:43:37	INT	<p>It would be helpful to know how far exactly the proposed 27 addition would extend to ensure it's consistent with the existing 25 addition. Sheet 1214-E2-0111 shows the measurement relative to the 25 addition. However, the 25 addition appears excessively tilted relative to the main building. Furthermore, the measurement of the 25 addition on 1214-E2-0100 may be inaccurate as it's shown from a setback of the building whereas such setback does not exist.</p> <p>I would object to a separation on the upper ground floor level between 25 and 27 higher than currently in place to avoid climbing access to the first floor level. In any case, alterations or additions to the boundary wall require consent from the wall's owners.</p>
