Dear Camden Council,

The trees at 8 Doughty Street should remain! We are talking about the polluted air quality in London, so felling a couple of trees would worsen that situation.

Specialists have been hired to assess the situation and who have come up with a solution. Instead of spending a couple of thousand pounds(!) on the felling, use this tax payers money to keep the trees and support them staying in Central London.

Trees and nature in general, are very important as well for the well-being of people living, working and going to school in the neighbourhood!

I feel very strongly about nature being part of the city environment, for the sanity and good of all concerned.

Where there is a will, there is a way... make them stay!

Yours sincerely,

Mrs Stefani Abadian-Crone
