Hi

This is to confirm that i wish to oppose to the cutting of those two plane trees at 8 Doughty Street. I work in the neighbourhood and believe it is important we keep our trees alive and healthy. For our health and happiness, we do need to keep this link to nature as much as we can and must preserve it wherever we can. Those trees are old; loosing them would make us loose all the time they needed to grow.

That added to the fact that there seems to be a way to preserve also the building of the EES, i hope you will oppose the cutting of the trees.

Best

Sebastien Raybaud
