This Maple provides a blaze of vibrant colour in the autumn months, and can be seen from my house and other homes in the road.</p> <p>Trees are precious to the environment and should be protected, especially with the current focus on climate change - protecting the environment and tackling global warming. We need more mature trees not less!</p> <p>In addition this tree provides a haven for birds, wildlife and insects.</p> <p>The removal of this tree does not adequately justify it's loss.</p>
