2021/3225/P	Alex Spillius	10/03/2022 15:50:37	OBJ	<p>This development is not what the area needs. We need affordable housing at much lower density, and lower density light industrial facilities. Worst of all will be the 19-storey towers, which are totally out of keeping with the area, and the 8-storey industrial units. This is Kentish Town, not Canary Wharf. This will be a massive blight on an historic, characterful area and have a significant and unacceptable impact on important and protected views from Parliament Hill to the north and across London.</p> <p>The high-rise towers will lead to too many small flats and not enough housing for families, which the Council's own housing need study concludes are needed. There are only a handful of 3 or 4 bedroom properties, which is a joke.</p> <p>If Camden Council is serious about nurturing its communities and local economies, it must dramatically scale down this development.</p>
