Dear Sirs,

I have received your letter re the removal of 2 trees from the rear garden of No. 8 Upper Park Road NW3 2UP.

I have been away and only just opened your letter.

I live at No 6 Upper Park Road and have my terrace on the raised ground floor directly overlooking the garden.

I am furious that the plan is to take these 2 trees down. Please explain the reason. Are they diseased or is it simply that they are in the way?

I have been trying to contact Nick Bell with whom I have dealt with in the past, but no luck.

Please do NOT pass this proposal, these are 2 beautiful trees and should not be removed.

Yours sincerely

Diana Bradford
