Design and Access Statement

Proposed project:

1. Removal of paint to restore the wall back to its original stone
2. Restoration of black painted railings

The historical and architectural importance of the listed building has been considered when designing this restoration project, in particular its physical features and setting.

No changes will be made from the original materials:

- The stonework will be restored by removing modern paint. Nothing / no material will be added.
- The railings will be:
 - o blasted clean, rust removed, water traps and pitting filled
 - o Repainted with the same colour and finish of black paint as on the original railings
 - o Any missing or broken finials / palings / frieze panels will be replaced with the most appropriate design in keeping with the original, before casting new.
