Subject: Tree maintenance

Four years ago you gave consent for a crown reduction to a tree in our garden that was a requirement of the property insurers. A copy of the consent is attached. We have been advised that we should maintain the tree at this size and so it now needs to be reduced to the size that you previously agreed. The work will be carried out by professional tree contractors (as before). A copy of the tree plan is also attached. Can you please consent to this work.

Regards

Julian Ashby
