Hello,

My name is Enrico Vitale and I own the business A'Do're'Fritto and Italian Restaurant specialising in Famous Italian street food in a high end environment in the Hawley Wharf food hall. We are writing to ask you or beg you to allow us this variation so we can achieve hours which will allow people who live and work in Camden to use us after work or at the weekend a little later in the evening.

There are many reasons why it is difficult for hospitality at the moment but I must say that our most successful sessions were when we used TEN's to deliver world famous Italian hospitality in an early evening environment. We attracted many fellow Italians who were able to visit Camden after work and our residents in Hawley Wharf who said they had not visited before as we closed too early. We have not had any trouble at Hawley Wharf since we opened and are a very safe place to visit already, this would not change as LabTech run a very good security programme

I am sure there was a good reason to insist Hawley Wharf closed at 9PM back in the day but we are in pandemic recovery and are fighting with one hand behind our back. Please allow this variation as we cannot survive without extra help.

Thank you
Enrico Vitale

Dear Licensing authority,

My name is David and I am one of the owners of 2 businesses in the Hawley Wharf Food Hall, Ekachai, a southeast asian restaurant and Three Uncles a Cantonese roast meat restaurant. We are asking Camden to allow this variation for extra hours as we need help to attract customers beyond lunchtime and very early evenings. The later nights we have been part of using TENs have been very well run and will cause no nuisance or crime as the halls are very well run and safe for customers. The hours will allow us to market to local people who live in the wharf and allow us to compete with restaurants on the high st.

Please grant this variation and help the traders in the food hall operate modest but normal trading hours for any typical restaurant in London.

Kind regards

David Tjong

Dear Sirs,

My name is Bekim and I have opened my first business "Greek Street" in Hawley Wharf recently.

Times are hard and footfall is not what it used to be in Camden, especially for us in the evening which are very difficult to operate under as we have to close at 21:00 which is in the middle of what would be an evening service. This means we are empty from early evening and this is making a bad impression on the halls in general.

We are all asking for normal hours so we can perform normal service and build on reservations and Hawley Wharf Residents can visit pre and post cinema. We have operated special events in December and there were no complaints or crime or nuisance.

Hawley Wharf is a very safe place to eat out and normal hours will not affect this situation. These extra hours will not deliver success but give us a level playing field to compete with the high street.

Thank you

Dear Licensing Authority,

Please accept this letter of support for the variation of the above application.

My name is Shiri Kraus and together with my business partner Amir Batito we own and manage our business **The Black Cow** - which is located in the Food Hall of Camden's Hawley Wharf.

We have been open since October and it would be fair to say we have struggled with the pandemic, low footfall and confusion over our hours of trading.

This variation will allow us to market to local residents and people visiting the cinema who cannot visit us as we close for service at 21:00.

This means we get no trade (walk up or reservations) beyond 20:00 as we have to ask people to leave!! In London this is a very harsh rule for us to abide by and deeply confusing for customers to understand.

Many of the Hawley Wharf residents say they do not understand why they do not have services on their doorstep at reasonable times in a place which is safe and secure and is not a nuisance in any way.

In late November and December the market allowed the use of TEN's to operate until normal restaurant hours and until Omicron arrived and everyone vanished we were encouraged by the take up of our extended offering.

There was no trouble, crime or violence during these TENs.

We need these hours as we need a level playing field with normal restaurants on the high street or we face financial peril.

We have tried everything and still we face an uncertain future.

We would face the future with a little more uncertainty if we were able to trade on a level playing field.

Please grant this variation.

I thank you in advance for your time and consideration.

Kind regards

Shiri Kraus

Dear Camden Council.

My name is joe Timur, I am a small business owner with a unit in Camden Market - West yard for 14 years and I also own Bang on Burgers In Hawley Wharf food hall.

I am writing as a small trader who need help, we opened in November as a part of phase2 of the food hall and it has been extremely tough with no footfall in Camden Town.
When there is a footfall we are closed and we ask Camden Council to consider giving as the foot hall the same time as other restaurants in the area so we have a fighting chance of survival.

Hawley Wharf is a safe place and we take care of our customers every needs, the security in the foot hall take care of keeping the place free from anti social behaviour so this is an ideal place to come visit after work or after cinema for a quick bite and a beer or wine. We understand that the application is for house only and not too late compared to others.
This is the kind of help and support me and my fellow traders need to market to after work or local residents in the area
Please conceder my letter and would be great if we can get help from your selfs

Best Regards
Joe Timur
