2022/0528/P	Priscilla Sharp	16/03/2022 17:40:25	OBJ	This is far to dense and will put undue pressure on all amenities etc. Please reconsider this extravagant plan.
2022/0528/P	Martina Jaehnig	16/03/2022 13:16:03	APP	The area is already so populated, traffic on Finchley Road at most parts of the day is already terribly congested and there's no way in or out. How is this supposed to work out in daily life with thousands more residents/cars in the area? I'm seriously worried about this and our quality of air and daily living.
2022/0528/P	Anna Murphy	16/03/2022 16:54:30	COMMNT	<p>I object to the plans to develop this area for the construction of 1,800 dwellings. This is already an area of high density, and many of the houses and flats in the West Hampstead/Finchley area are Homes in Multi-Occupancy. The strain on local services such as transport, schools and GP surgeries is already huge. The area suffers from heavy traffic and pollution and there is little green space. The development of such a large number of dwellings with little regard to infrastructure is damaging both to the local environment and quality of life.</p> <p>I can see little in these proposals which addresses the additional demand that all these new dwellings will bring on sewage and water pipes, on public pavements and roads, on local doctors and schools and transport systems. They will also impact fire safety and quality of life of those who will live there. These high rise dwellings will dominate the landscape and block out light on West End Lane and destroy the community feel of West Hampstead.</p> <p>The current shopping centre at the O2 is a valuable asset. Replacing this with approximately 1,800 flats feels like Camden has little regard for the future of the area and the local population. It feels greedy and short sighted. It will make the developers a lot of money but will cause issues for both the local authority and local people for years to come.</p>
2022/0528/P	Maria Faundez	16/03/2022 18:31:30	COMMNT	<p>I strongly oppose to the demolition of The O2 Centre , 255 Finchley Road, London, NW3 6LU. It wasn't built long ago. The plan is totally against a sustainable living. The whole neighbourhood is against these plans. We are the ones being affected, our spaces and our quality of living is being reduced to the minimum. It's not about housing people. It's about selling and making money. When the resources of the Earth are finished we will not be able to eat money. And they will finish pretty soon if we keep destroying them. What's the use of recycling? It's time we begin to think clearly and fairly for the people and planet.</p> <p>Thank you.</p>
2022/0528/P	Kerstin	16/03/2022 14:55:05	OBJ	<p>Not everybody can live in London. We are overcrowded in this area already. We do not have the doctors, the school places, the sewage facilities etc.</p> <p>I'm against the density and scale of this housing in one small, already stretched in terms of services, area.</p> <p>I'm against this proposal.</p>
2022/0528/P	Camilla Dell	17/03/2022 07:36:55	OBJ	We object to the construction of so many flats in such a small area. The quality of life, strain on public services will be immense. The loss of the O2 centre is criminal given the building was only built recently and provides valuable amenities to local residents.

2022/0528/P	Grison	16/03/2022 16:56:05	OBJ	Buildings are way too high compared to existing buildings It is possible to have modern 3-4 storey high building, there are plenty of examples in Camden Reduce profit, increase quality of life of existing and new residents
2022/0528/P	Liliana	16/03/2022 18:38:51	COMMNT	This proposal is not taking into account the environment at all STorey blocks are not a good way to live especially so high it's a fire risk also with a proposed single staircase for exit it's a hazard waiting to happen and does not look good at all - UK is becoming a concrete jungle this must stop at once please consider the wildlife too every time concrete block goes up less wildlife and they are endangered it's a terrible horrific proposal which I OBJECT to and willing to protest too
