

All dimensions to be checked on site prior to commencement of any works, and/or preparation of any shop drawings. Sizes of and dimensions to any structural and MEPH services elements are indicative only. See relevant consultant's drawings for actual sizes and dimensions. This drawing to be read in conjunction with all other Architect's drawings and specifications for full details and further information. All proprietary systems shown on this drawing are to be installed strictly in accordance with the Manufacturers/Suppliers recommended details. Any discrepancies between information shown on this drawing and any other contract information or manufacturers/suppliers recommendations is to be brought to the attention of the Architect immediately. This drawing is issued in accordance with the Building Regulations and to the satisfaction of the Local Authority. **DO NOT SCALE FROM THIS DRAWING**

The image contains two architectural drawings of a building facade, likely a side elevation, showing proposed changes. The drawings are in black and white line art.

Left Drawing: This drawing shows a section of the facade with horizontal siding. It features a large, multi-paned window unit with a decorative pediment above it. Below this unit is a smaller, single-paned window. To the left of the main window unit, there is a vertical opening. To the right, there is a vertical opening with a small balcony or Juliet balcony above it. Labels with leader lines point to these features:

- "New painted timber framed windows in existing opening" (pointing to the large window unit)
- "New painted timber window in existing opening" (pointing to the smaller window below)

Right Drawing: This drawing shows a similar section of the facade, but with a different window configuration. It features a large, multi-paned window unit with a decorative pediment above it. Below this unit is a smaller, single-paned window. To the left of the main window unit, there is a vertical opening. To the right, there is a vertical opening with a small balcony or Juliet balcony above it. A label with a leader line points to this feature:

- "New metal Juliet balcony. Black painted finish" (pointing to the balcony above the rightmost opening)
