2022/0528/P	A Druian	18/03/2022 07:30:58	COMMNT	How ridiculous to plan this development of so many flats housing so many people. The strain on the public pathways, roads, pavements, schools, shops, doctors, pharmacies, trains, buses, waterpipes, sewerage and more environmental issues will be more than dreadful, placing huge strain on just everything; further thought and planning should be well considered - the public are complaining - and who would want to live in those high blocks of flats, with one exit staircase, lifts or electricity failures and more. Please consider all very well.
2022/0528/P	Monica Del Vecchio	17/03/2022 19:04:30	OBJNOT	The area cannot be overloaded with so many people and cars and everything else. We need breathable spaces and good place to socialise and feel good. Why don't you redo the O2 and turn it into a place useful for the community where people can learn new things and do something good in life. Flats are only going to make someone richer at the expenses of the environment (I would assume that with people will come cars and more pollution). The infrastructure is not adequate to welcome such a development. In the last two years we have water work constantly because the infrastructure cannot cope NOW, let alone after such a shameful job. I absolutely request that this project is reconsidered and abandoned. I strongly object to such a development. This is going to take the area down in terms of quality of life, for us that have invested so much in it.
2022/0528/P	CHARLES Morris	17/03/2022 15:56:50	OBJ	Extremely worried by the high density of this development. The local infrastructure - buses, Tubes, schools, GPs etc. - clearly won't cope with it. Unless these infrastructure demans are met I object to it proceeding at such density. Also, we will lose a supermarket, a cinema and a great bookshop, all of which are of tremendous value to the local community.
2022/0528/P	Emma Summerton	18/03/2022 08:09:31	APP	This is just more rich people making money from development that none of them plan to actually live in! This will make a huge negative impact on the area snd community. Who is receiving a kick back at Camden Council to let this go through?
2022/0528/P	Tayah	17/03/2022 14:45:25	COMMNT	This is an awful plan and will ruin the area. We do not want more tower blocks and to lose the O2 centre and sainsburys. We have hardly any decent supermarkets in the area as it is.
2022/0528/P	Tayah	17/03/2022 14:45:22	COMMNT	This is an awful plan and will ruin the area. We do not want more tower blocks and to lose the O2 centre and sainsburys. We have hardly any decent supermarkets in the area as it is.

2022/0528/P	belinda lees	17/03/2022 11:16:47	OBJ	The proposed development is far too dense and far too high. It is completely incompatible with the local architecture in West Hampstead and Finchley Road. It is ugly and inhuman and furthermore Camden would be failing to implement the London Plan which should designate areas in Camden that are or are not suitable for high-rise buildings. Our area, surrounded by conservation areas, is obviously not suitable. The addition of nearly 2000 households into our area which is already struggling to manage local services such as transport, schools, medical services and rubbish collection is clearly absurd. The scheme should be rejected and resubmitted with a greatly reduced number of units and the height and density of the housing appropriate to the local area.

2022/0528/P	Alan	17/03/2022 14:29:45	OBJ	I also wish to object in the strongest terms to this massive inappropriate over-development. Tower blocks are NOT the answer for new housing. They will be quite out of place in the residential area. There will be insufficient public services and transport to support the massive influx of new residents. There will be way too little green space for the number of residents, a tiny fraction of that specified in Camden regulations. The loss of the only large supermarket (and its parking places) will be a huge loss to the area. Of course Camden planners can only see the financial gain in the scheme, and seem to care not one jot for quality of life of new and existing residents of the area. A huge disaster (again) (C/f Avenue Road and Murphy's Yard).
2022/0528/P	Anup Amesur	17/03/2022 17:13:50	OBJ	I have lived in West Hampstead since 1982 and have watched it grow. Or area has already changed drastically from what it was - a great high street and a community that lived and worked together and looked after each other. It is now over populated with the new developments that have been created in every small available space. The village life I knew and loved has gone. This new development will be a strain on all the public services: pavements, sewage, water pipes, roads, transport (buses, trains), safety etc. Our area will become over crowded and noisy. I object to this development.
2022/0528/P	Aimee Bryant	17/03/2022 18:11:45	PETITNOBJ E	Who is ensuring the local infrastructure can cope?? What about our drainage systems (I personally flooded this year, and know now that over development is a huge factor). Who is ensuring schools, GPS, dentists etc can cope with sure a huge surge of local residents. I bet none of these flats will be available to purchase for a fee anywhere near what working class locals can afford. This is far too many flats in one small area. We have to stop these types of developments
2022/0528/P	Sinming Law	17/03/2022 11:22:01	OBJ	The plan of the detailed development is too high. It does not level with the rest of the residential building around this specific area, which is only around 3-6 stories high. It will bring to the immediate area a lesser feel of the original Hampstead town. Please reconsider this. As this is also an affordable housing, it would bring in poverty and a big portion of a much lower class right next to the most affluent town of London.
2022/0528/P	Sandra grant	18/03/2022 06:15:23	OBJ	This development is too big. Too many people - the area is overcrowded already. We don't want this dreadful structure in our midst. The infrastructure can't take anymore people. We are horrified that Camden Council would even consider it. Please reject immediately. Whose side are you on the developers? or the residents and tax payers who you are supposed to represent.
