

Petition to stop the O2 Centre development

by Marx de Morais, Calvin Po
& Don Williams

Petition summary and background	There are imminent plans to demolish the O2 Centre at Finchley Road and its car park to make space for 1,900 new homes. The O2 Centre is the only shopping centre in our neighbourhood, providing many local amenities, with one of the few large supermarkets, many small and medium-sized retailers, a garden centre and the only car park on Finchley Road. Not only are we losing a key economic centre that is important to many of us, but by adding thousands of new residents, we are stretching the capacity our existing local infrastructure and will increase pollution and crime.
Action petitioned for	The undersigned are opposed to the O2 development plans and would like to see them scrapped and replaced with alternative plans for reasonably-scaled development that is sustainable and appropriate for our neighbourhood.
