Hi Tessa, here is the list of things I came up with for the top-floor flat, just to make sure everything gets taken care of:

- where the kitchen tiles meet the hallway lino needs to be refinished
- it looks like there needs to be some replastering where the tubes from the living room radiator are, and where the skirting board meets the kitchen
- the holes from the tubes in the hall floor by the front door need to be filled in
- the bathtub needs regrouting
- there are holes around the bathroom door that it would be nice to fill in
- the paint is peeling behind the radiator in the bedroom

Thanks,
Carla
