[REDACTED]

I assume I may be too late to send this email, having been out of the country for several weeks. However, in case it can make a difference, please don't fell these trees. These are old and precious. If an alternative can be found, it should be. We need trees in Camden. There has been some excellent new planting by Camden, including in our own street, but don't remove the older larger trees without due consideration, please.

Best wishes  
Isobel McDermott-Spencer
