2021/3225/P	Matthew wright	23/03/2022 18:51:58	OBJ	One of the finest spaces in North London - Kentish Town City Farm - will be lost or remodelled to within an inch of its life by this application. My family and the city farm's thousands of other visitors have been blown away by what's offered by the site to date. In this age of environmental awareness the proposed development is not only overcrowding an already busy area but simultaneously depriving existing residents of one of the few genuinely green assets available in this area. I hope and pray our councillors see sense and reject this proposal
