Hello Amy,

Thanks for clearing this up! As our only concern was the double-height window, we have no objection to the revised scheme.

Many thanks for all you work on this application,

best wishes,

Richard

Hello Amy,

Thanks for your email and the attached drawings.

The window we are concerned about is the double-height window with the arched top which was shown in the approved rear elevation drawing as running across the edge of the ground floor structure (not the lower ground floor). None of the drawings seem to show this detail. Can you see if it exists then we are very happy to review it.

Thanks for all your work on this application,

Best wishes,

Richard
