2022/0266/P	CRASH	30/03/2022 14:49:01	COMMNT	<p>CRASH wishes to make two further comments as a result of a site visit. As noted previously, the Applicant states that there are zero trees on the site. The site visit confirms that there are three - two on the western boundary (although the two may have come from the same root-stock beneath the ground) and one on the eastern boundary.</p> <p>The site visit also confirmed that the forecourt does not have "permeable paving e.g. gravel" and CRASH would wish to object if the Applicant proposes to use loose gravel on the forecourt.</p> <p>CRASH is unable to complete its Comments until outstanding queries have been clarified.</p>
