**Subject:** labtech proposed tower block

To Camden Planning Department,

My goodness what on earth are you thinking?

The proposal is far too high and wide!

Why would we need anymore speculative office developments in this area. We need to provide space for the businesses that provide work in the area, rehearsal and workshop space. People visit the area for the theatre, dance and entertainment industry.

How do you justify the demolition of all the buildings for so few new homes it is immoral.

I'm shocked that this is a proposal in a time when people need homes, desperately need homes and ones they can afford to live in.

Regards
