2022/0528/P	Andrea Esteban Martiñ	05/04/2022 11:20:30	OBJ	<p>OBJECT.</p> <p>The O2 centre is currently an essential spot for a lot of people. Although it has a few empty spaces (maybe focus on filling them instead of demolishing it?) the ones that are open (bookshop, grocery shop, gym, cinema, restaurants) have a lot of customers that can't go anywhere else for various reasons. So it is considered a key spot. Removing that AND adding 5000 flats without actually thinking about the fatal causes that will do to the area is irresponsible. I object to the plans, they are ludicrous and make no sense. That will not reactivate the area, it will saturate it and will cause a lot of social issues.</p>
2022/0528/P	Matthew Herschmann	06/04/2022 01:41:14	OBJ	This planning application is absolutely horrendous in terms of the proposed density of housing. It is totally out of keeping with the surrounding neighbourhood and will be a blight on the area. The number of homes on the footprint of land should be no more than a quarter of that sought by the developers. i.e. around 450 apartments. Further the blocks should be no higher than around three to four floors, as anything higher would ruin the skyline and light for nearby residences.
