

Application No:	Consultees Name:	Received:	Comment:	Response:
2022/0281/P	John Michael Edwards	06/04/2022 16:11:28	OBJ	<p>I write to register an objection to this Planning Application insofar as this refers to the installation of a "new frameless Glass balustrade to the rear at 5th floor level". This proposal is out of keeping with the overall look and nature of Hillfield Court (HC), which is an Art Deco building constructed in 1934, and would be aesthetically very displeasing. Further, its construction would entail interference with the balcony which is part of the building's fabric and which has not been demised to the applicant. Both care and especially resource are expended by the HC management in maintaining the period look and feel of HC, as far as this is commensurate with the demands and needs of modern living. Any changes to the 114 Flats at HC must first undergo a professional review and be supported by a Licence to Alter. This application has undergone this process and has already been clearly rejected by the HC management as the applicant is aware.</p>
