**2019/0002/P – 23 Hampstead Hill Gardens London NW3 2PJ** Amalgamation of two flats at basement and ground floor levels. **Certificate of Lawfulness Granted 19-03- 2019**

**APP/X5210/X/17/3172201** (2 & 3 Wildwood Grove; ref: 2016/5621/P) in Camden which was allowed on 15/01/2018 for the conversion of two residential dwellings into one. In the assessment, the Inspector considered that the amalgamation of two dwellings into one would not be a material change of use and therefore would not constitute development.

## **4.0 Assessment**

- 4.1** The Town & Country Planning Act 1990, Section 55, Part 3A states that “the use as two or more separate dwelling houses of any building previously used as a single dwelling house involve a material change in the use of the building and of each part of it which is so used”. However, the legislation does not comment on whether combining two dwellings into one would constitute development. In this case it is 2 units into 1 in this property.

Although not relevant in the determination of this certificate application, Camden's Local Plan (2017) policies seek to protect existing housing by resisting development that would involve the net loss of two or more homes. As the proposal would only involve the loss of one residential unit, it is not considered to materially impact the Borough's housing stock nor impact the ability of the Council to meet its increased housing targets. No external changes are proposed to the host building therefore there would not be a material change to the street scene in any way. The site would remain in residential use following the conversion of two residential flats into a single dwelling house, and is not considered to be a material change of use. The de-intensification from two to one would have no material impact of neighbour amenity or infrastructure. Therefore, the works are not considered to fall within the “meaning of development” requiring planning permission of section 55(2)(f) as defined by the Town and Country Planning Act 1990.

With regards to judgement of whether the development is material when compared with the development plan under Camden Local Plan policies H1 and H3, the proposal would result in the net loss of no more than one residential unit and would not result in the loss of residential floorspace. The proposed development as presented would therefore comply with policy H3 of the Camden Local Plan. This is confirmed by the supporting text to policy H3 (paragraph 3.75).

**Recommendation: Approve**
