Final price

### General Terms

Best current lead times are **4-6 weeks** from post survey order approval.

Fully in-house manufactured windows/doors installed by our directly employed technicians.

Low Threshold or Full Frame with stainless steel tracks and ball bearing rollers.

Black/Silver hardware with multi-point locking system and black HI (High Insulation) gaskets.

All items are internally glazed for added security.

10 years insurance back warranty, FENSA Certification and 30 years colour guarantee on matte finishes.

### Please Note

All prices, specifications, and sizes are subject to our site survey and as such may be subject to change.

We require all areas to be accessible and clear both for the duration of our site survey and installation.

Flashings and/or claddings are not included in the price.

Any crane or scaffolding on site is chargeable on top of the contract value and will have to be paid in full by the customer prior to our works onsite, or arranged by customer at their own expense.

We assumed that convenient parking space is available for our site survey and installation works duration.
