Subject: Application ref 2022/1187/T felling of two trees 104 Albert Street  
Camden

Dear Sirs, I live at 24 Delancey Street and look out onto the back gardens area within which these two trees are situated. I strongly object to the the felling of the two trees as described in the planning application above.

Their removal will have a negative effect on the visual appearance of the whole rear gardens area which at present is generous in trees and of great benefit to the existing wild life especially native birds.

It is difficult to understand why these trees would need to be cut down. If it is an insurance request then this should be tested by a qualified arboraculturalist. In my experience insurance companies are often over cautious. These trees could be pollarded if the canopies are encouraging the spread of the root protection area.

I strongly object to the above application and would hope that the council will turn it down.

Sincerely, Stephen Marshall RIBA RIAS
