2022/1505/L	Mojgan Green	12/04/2022 09:57:31	AMEND	<p>Inadequate information.</p> <p>HCAAC is unclear if there is more to this application than shown on application drawings .</p> <p>There needs to be an existing survey drawing of this listed building boundary that is lacking in this application.</p> <p>The survey must provide all relevant levels including adjoining boundaries and materials. All levels of existing drainage to be also included in the survey.</p> <p>It is outmost important to avert any danger to third party at all times if this application is to be considered or if approved. It is essential that all materials reused if necessary, and a condition put on any proposed materials this being an important heritage site; in constant use.</p>
