2021/6286/P	Frederic Batoua	13/04/2022 20:44:30	SUPPRT	<p>As a local resident, I am supportive of the planning application and in particular the removal of the trees at the front garden and the overall tree planting programme proposed by the arboricultural report.</p> <p>The current front garden setting is not maintained and very ugly at the outset. Also creating less paved area is a plus for the front garden.</p> <p>I am also supportive of the first floor terrace as the recent COVID years have shown the importance of outside space for general mental health.</p>
