Dear Camden Planning

Re: **2022/0218/P ...93 South Hill Park , NW3 2SP**

We are neighbours living at No 95 South Hill Park and would like to object to this planning application on two grounds.

1, The back and some of the side of the house is due to be rendered in cement and painted white. This house is part of a beautiful Victorian terrace which is uniformly in brick . From the Heath and from Kite Hill, No 93 painted white in the middle of this curved terrace will stand out like a sore thumb , especially in winter when there are no, leaves on the trees, The aesthetic beauty of this Victorian terrace will be destroyed

It will look particularly out of place because No 93 is one half of a semi detached house. So from the Heath the building which is Nos 93/95 will look half white and half brick .

2 After looking at the side elevation and section drawings shown in the planning application , we are also very worried by the proposed terrace in the garden. It is built up very high above the garden level and only just below the height of the garden wall . This means that people on this terrace will look down and into our own and other neighbours' gardens , The height of the terrace creates a serious loss of privacy for us but also for the applicants in No 93 since anyone on the terrace will stand out high above the garden wall and will be very visible from anyone in our garden or other gardens .

Thank you
