Dear Sir/Madam

**DECISION**

Planning (Listed Building and Conservation Areas) Act 1990

**Listed Building Consent Granted**

Address:

**Flat A  
66 Delancey Street  
London  
NW1 7RY**

Proposal:

Installation of temporary internal secondary glazing to one door and one mechanical ventilation unit to the front of the building at basement level for noise mitigation works during construction of the HS2 railway.

Drawing Nos: 1EW02-CSJ-GI-MAP-SS01-000065; WPI P066 NI-66A DeS-EX-EL-02 Rev 2.0; WPI P066 NI - 66A DeS-EX-BS-J-02 Rev 1.0; WPI P066 NI - 66A DeS-PR-BS-J-02.1 Rev 1.0 ; WPI P066 NI - 66A DeS-PR-BS-J-02.2 Rev 1.0; Specification Sheet - Ciab9x6-2018/2; Sonair Acoustic (sound attenuating) filtered air supply units; Design Statement, Heritage Statement and Statement of Justification 66 Delancey Street, London (Flat A - Basement and Ground Floor) Revision: P01;

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning

(Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

1EW02-CSJ-GI-MAP-SS01-000065; WPI P066 NI-66A DeS-EX-EL-02 Rev 2.0; WPI P066 NI - 66A DeS-EX-BS-J-02 Rev 1.0; WPI P066 NI - 66A DeS-PR-BS-J-02.1 Rev 1.0 ; WPI P066 NI - 66A DeS-PR-BS-J-02.2 Rev 1.0; Specification Sheet - Ciab9x6-2018/2; Sonair Acoustic (sound attenuating) filtered air supply units; Design Statement, Heritage Statement and Statement of Justification 66 Delancey Street, London (Flat A - Basement and Ground Floor) Revision: P01;

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 4 The external metal grilles serving the mechanical ventilation unit at shall have its outer face fitted flush with the external wall finish.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 5 The works hereby approved are for a temporary period only and shall be removed from the property, and the affected historic fabric reinstated to its pre-installation condition and made good using sensitive repair techniques using materials and techniques to match the existing building, within 6 months of the HS2 noisy works period ending, for which they are required.

Reason: The type of works are not such as the local planning authority is prepared to approve, other than in exceptional circumstances and for the limited period required, in view of their appearance and their impact on the special interest of the listed building. The permanent retention of the works would be contrary to the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
- 3 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 4 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Noise and Licensing Enforcement Team, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (Tel. No. 020 7974 4444 or search for 'environmental health' on the Camden website or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 5 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at [www.camden.gov.uk](http://www.camden.gov.uk)) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 6 Reasons for granting listed building consent:

This application seeks approval for the installation secondary glazing to the external door and a mechanical ventilation unit at basement level to the front elevation of the property for noise mitigation during construction of the HS2 railway.

The application site is a grade II listed building located in the Camden Town Conservation Area. The property is one of a terrace of 11 houses built in the mid nineteenth century. The property comprises three floors raised on a basement and has been subdivided into flats. It is constructed from stock brick with a rusticated stucco ground floor and a slated valley roof.

The proposed design is intended to meet the functional requirements of reducing noise within the residential property and meeting the environmental

requirements specific to the circumstances of this application, whilst minimising the impact on the significance of the heritage asset and minimising inconvenience to the residents.

The secondary glazing frame will be manufactured from aluminium with a polyester powder coating or similar and will be installed into a new timber subframe which is fixed to the existing wall surface or window reveal. The units will be glazed with 6.4mm laminated glass for acoustic attenuation.

As the secondary glazing needs to be set back internally from the glazed door (by between 100 and 150mm) to achieve the desired acoustic performance and minimise noise levels from the HS2 works, from the exterior the secondary glazing including its framing is likely to be visible when viewed obliquely. Notwithstanding, the visual impact on the exterior of the listed building will be low, and will only last for the duration of the construction works due to the temporary and reversible nature of the installation. It is accepted that, internally, there is a small amount of intervention to the historic fabric through the installation. However, the works are reversible so it is reduced to the minimum necessary and is outweighed by public benefit of keeping the building in use.

The proposed input ventilation is by means of the installation just above floor level of a mechanical input fan unit specified as the Sonair F+ device (manufactured by Titan or similar). The units will be electrically-powered with push button controls to control the volume of air within the room interior, with ventilation rates adjustable from 28-225 cubic metres/hour.

A 106mm hole is to be drilled through the external brick wall. Cut lines will be confined to bedding joints where possible to minimise impact to the fabric of the wall and to facilitate re-insertion of bricks after the unit is removed. As few bricks as possible will be carefully removed from the wall to allow insertion of a cast iron grille measuring 228 x 153mm fitted flush with the external wall, which will conceal the duct from the fan unit. In order to minimise visual impact, the external grille will be located discreetly below window cill level and where possible are lined up vertically.

A condition of this consent requires that, on completion of the HS2 construction works, the secondary glazing and mechanical ventilation will be removed from the property, and the affected historic fabric reinstated to its pre-installation condition and made good using sensitive repair techniques. Fixings will be carefully removed to prevent damage to joinery and plasterwork.

All the components of the ventilation unit, both internal and external, will be removed, the opening will be repaired using reclaimed London stock brick and stucco to match the existing. Internal plaster finishes will be reinstated and made good, using materials and techniques to match the existing.

- 7 The proposed secondary glazing and mechanical ventilation unit will cause less than substantial harm (paragraph 202 of the NPPF) to the special interest of the listed building. This level of harm has been reduced to the minimum possible and the works will be removed when no longer required. Great weight

is given the special interest of the listed building but this is balanced with the public benefit of keeping the building occupied and in residential use (its optimal viable use) during lengthy HS2 construction works. In this case the public benefits of the scheme outweigh the limited amount of reversible harm which is proposed and therefore it is recommended that the application is approved.

Public consultation was undertaken for this application by means of a press notice and a site notice, but no responses were received. Camden Town CAAC was also consulted but did not respond.

The site's planning history was taken into account when arriving at this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
