**REVIEW OF METHOD STATEMENT: 1**

**Description:** Rotary Piling @ 156 West End Lane, West Hampstead

**Location:** PP9652 West End Lane

Dear Steve,

I refer to your Method statement reference Number: 1. Dated on 15<sup>TH</sup> December 2021 in respect of the following work: Rotary Piling @ 156 West End Lane, West Hampstead. I confirm that the method proposed in this Method Statement appears to be satisfactory to Network Rail.

This acceptance does not constitute acceptance of liability of Network rail for any accident, incident or breach of statute, which might arise from the method adopted.

Any subsequent variation to this WPP/ Method Statement must be accepted by the nominated representative of the Senior Programme Manager (Assets), Network rail. This will normally be the appropriate construction Manager.

Any such variations must be formally recorded and signed by both parties. Any significant variations will require a fully revised Method Statement, which must be accepted 10 days before the commencement of work.

This is subject to sign from the associated temporary works design by the Project Engineer

Yours sincerely

Jeff Webb  
Assistant Construction Manager
