2022/1079/P	steven adams	21/04/2022 13:49:14	OBJ	<p>The appearance does not compliment the character of the surrounding Conservation Area and the impact on the visual amenity of this area is unacceptable. The appearance will have a detrimental impact on the residential amenity of residents on all the nearby roads. This site therefore should be discounted on these grounds.</p> <p>The application was applied for and registered as a full planning application for "Residential Minor Alterations". This is not the correct type of application nor an accurate description of the proposal.</p>
