The Council has considered your application for prior approval in respect of the telecommunications equipment described above and hereby determines that prior approval is **not required in this instance**.

Informative(s):

- 1 The works now fall under permitted development so prior approval is not required under Town and Country Planning (General Permitted Development) (England) (Amendment) Order 2022.
- 2 It is important to note that this written notice doesn't indicate whether or not

the proposed development would comply with any of the other limitations or conditions of Schedule 2 Part 16 Class A. If you want confirmation that the proposed development would be lawful (e.g. on the basis that it would comply with all of the limitations and conditions of Schedule 2 Part 16 Class A), then you should submit an (optional) application to the local planning authority for a Lawful Development Certificate (LDC).

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.

Yours faithfully
