

Rafi Miah

Dear Sir/Madam

Objection to Development Proposal

We would like to send additional comments on the proposed development after reviewing the update leaflet from Save Museum Street. We continue to object to the development proposal – the proposal is far too high and too bulky, and the old building should be redeveloped (for all the well-established environmental reasons) rather than being torn down. A new building of the proposed height would do significant damage to the neighbourhood.

We urge you to reject the current proposal.

Yours faithfully

Tanis E Jardin
