Description

Please describe details of the proposed development or works including any change of use

The proposal is to utilise the roof space further to create a second floor more in line with the neighbour houses. The building is not in a conservation area and not listed.

The front Elevation will have a slate roof mirroring the style of the houses in the vicinity. The application does not alter the front elevation that has already been approved. The application focuses on the rear aspect of the building. The first three houses in the cul-de-sac are three levels high with a roof terrace on top accessed via the loft extension. The adjoining cottage is also on three levels.

The extension was designed to integrate the applications that had been approved to the rear with further alteration to make the buildings to blend with the general elevation proportions of the buildings. The extension will be built with matching bricks and a slated roof.
