2022/0528/P	Samantha Sears	27/04/2022 15:07:04	OBJ	I am very concerned about the proposed height, mass and density of the buildings. This will have a significant and adverse impact on the existing residents and the character of the local area. More tower blocks are not wanted. Height should not exceed 6 stories.
2022/0528/P	Samantha Sears	27/04/2022 15:07:06	OBJ	I am very concerned about the proposed height, mass and density of the buildings. This will have a significant and adverse impact on the existing residents and the character of the local area. More tower blocks are not wanted. Height should not exceed 6 stories.

2022/0528/P	Deborah	02/05/2022 17:12:22	OBJ	<ul style="list-style-type: none"> - No high rises ! Blocks in varying heights of 4-8 floors maximum! -1800 homes on this site are way too many ! Even half this is over populated for the plot ! - More green space & trees needed ! At least 50% less buildings than Landsec proposal! - Current local infrastructure does not support any additional people! Public transport links are already overloaded at peak times ! - Dedicated medical centre in phase 1 needed ! Local medical centres are already full / overloaded ! - additional nursery & schooling (places / funding) are required in the local area to accommodate any additional families! - affordable large supermarket with sufficient parking required throughout development to completion (to maintain current population use & provide competitively priced household shopping to new residents)
2022/0528/P	Laura Palfreeman	27/04/2022 21:17:12	COMMNT	I think it is an overdevelopment of an already very busy, densely populated and compact area. The O2 centre is a great local place to go for shopping and dining. There is also limited step free access to local stations, such as Finchley and Frognal, Finchley road, Swiss cottage and west Hampstead making the development less attractive.
