## Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

During construction our client discovered that for the installation of the new supply connection the existing gas meters and new main electric boards were not sufficient or didn't comply with the latest requirements from the suppliers and we needed to house it externally accordingly to their instructions. Further more, the space allowed previously for the bins was not sufficient for the building occupancy, so we needed to adapt the bin storage area to allow proper storage and avoid the bins to stand in the way of the access.

Additionally, the front walls were reduced slightly as our clients decided to provide their tenants 5 electric car charging point. It is known to be an important concern to residential building at the moment with the increasing number of electrical cars. Unfortunately this area still has a low number of public chargers in the area so we believe this addition is very beneficial to not overload the community resources.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

The development hereby permitted shall be carried out in accordance with the following approved plans:
