2021/4024/P 8 Richardsons Mews: Objection

Hello Tony,

This retrospective application for the installation of 'AC units within acoustic enclosure' is unclear. The BCAAC requests photos of before and after. The drawings provide no clarity. The BCAAC asks for visual information on the impact of these units on the surrounding buildings, some of which are listed, and asks whether these units are visible in the public realm, or have an impact on the public realm, in a Conservation Area. A site visit may be a way forward.

Regards,

Marianne Jacobs-Lim

on behalf of the Bloomsbury CAAC
