2022/1059/P	David Rosie	28/04/2022 18:55:11	OBJ	We object very strongly to this proposal. This proposed development is right next door to our house. We have a very limited amount of light and sunshine in our courtyard garden as it is and the proposal for a rear dormer would significantly reduce our light. We only get around 2 hours of sunlight in the garden as it is in the Summer and any reduction in this would affect us badly. There would also be a light issue in our rear bedroom. I am also concerned about the conservation area aspect of this proposal. It would set a precedent for this kind of conversion which I think would be bad for the area
