2022/1633/P	Y Park	29/04/2022 13:41:29	OBJ	<p>Please can you clarify if this will be on Flaxman Terrace or Euston Rd.</p> <p>Please can you give more detail on what the pole will consist of and if there will be any lights (including small LEDs) on the mast, or if it will emit any noise.</p> <p>As a resident of Flaxman Court, I'm already disturbed by the already high level of light and noise pollution (both day and night) coming from The Halo Building, which has made the street increasingly less residential over the years and reduced the quality of life of residents living opposite.</p>
2022/1633/P	Dr Julia Pascal	29/04/2022 14:13:01	OBJ	<p>Is this addition on Flaxman Terrace or Euston Road?            What will the pole will consist of? Are there to be lights? If so what type? Will there be a noise element to this installation?</p> <p>As Chair of Flaxman Court's Tenants &amp; Residents' Association and Vice Chair of Holborn's DMC, I represent residents in 84 flats, who have expressed great anxiety and the over development of Flaxman Terrace. We suffer light and noise pollution 24/7 from The Doctors Laboratory with 24/7 noise from delivery vehicles. Quality of life has been reduced. If the installations of these poles and electronic communications are added to the burden of more electronic pollution Flaxman Terrace, the residents oppose this addition to our over development and the effect on our health.</p> <p>Julia Pascal PhD            Chair Flaxman Court TRA            Samantha Leverette Vice Chair            Nick Jones Treasurer            10 committee members            on behalf of 300 residents            Vice Chair Holborn DMC</p>
