Supporting letter for Planning Application 2022/0972/P

To Camden Planning Department.

Hello,

I am a local resident and visit the Camden Market often.
I would like to offer my strong support in favour of the application. I think it will enhance the local area and increase an opportunity for local businesses to recover post-pandemic. I can't imagine that the opening hours would increase anti-social behaviour.

Please approve this application and allow extended opening hours to enable the Camden Market area to thrive as it should.
