Subject: Tree trimming

My garden is in the Rochester conservation area (16 Rochester Terrace), and has a huge bay tree that needs trimming as it seriously shades the gardens of both No.16 and no. 15. My neighbour and I reckon it's time to reduce its height and width, for which we need your permission.

I attach a photo of the bay tree. -

We propose to have it trimmed later in the summer once the magpies have flown. We notice their nesting just now.

Thanks,
Murray Last
