Dear Sir/madam

PLANNING APPLICATION - THE TOWN & COUNTRY PLANNING ACT 1990

RETROSPECTIVE APPLICATION FOR RELOCATION OF EXISTING ENTRANCE DOOR TO UPPER FLOOR FLATS.

29 MARESFIELD GARDENS, LONDON, NW3 5SD

Please accept this covering letter as an accompaniment to this full planning application for the retrospective works for the relocation of the existing front door at 29 Maresfield Gardens. This letter provides a summary of the site and the proposed development.

Please also find enclosed a completed application form, CIL form and a full set of existing and proposed plans including site location plan.

The site

The site comprises a four-storey semi-detached Victorian property located on the west side of Maresfield Gardens currently used as 4 residential flats. The property, along with neighbouring development, comprises an elevated ground floor set approximately 2 metres above the street level set behind an enclosed front garden. A lower ground floor is situated approximately 1 metre below the street level. A substantial private garden is located to the rear of the property.

The site is located within the Fitzjohns / Netherall Conservation Area. The building is not statutorily or locally listed, however it is identified in the Fitzjohns / Netherall Conservation Area Statement (2001) as a building which makes a positive contribution to the character and appearance of the Conservation Area.

Surrounding development is characterised by street frontage residential development comprising red brick properties of a similar size and scale comprising a mix of single residential homes and converted flats.

The proposal

This application seeks full retrospective planning permission for alterations to the existing property. The development can be described as:

‘Retrospective application for the relocation of existing entrance door to upper floor flats.’

For full details of the proposed development please refer to the supporting plans and elevations.

Planning Assessment

Design and heritage impact

Policy D1 of the Camden Local Plan (CLP) requires development to be of the highest architectural and urban design quality, and have particular regard to design and visual impact and to the context within which it is placed, and the contribution it makes to the landscape qualities of the area.

CLP Policy D2 states that the Council will preserve, and where appropriate, enhance Camden’s rich and diverse heritage assets and their settings, including conservation areas.

The relocation of the existing doorway and entrance to the upper floor flats at 29 Maresfield Gardens has a negligible visual impact on the character and appearance of the property. The door location is out of sight from the street scene and wider conservation area due to its siting inside the existing porch. The door is of high-quality materials and respect the existing architecture and character of both the host property and wider setting.

For the reasons outlined above, the works will have an acceptable impact on the character and appearance of the property and the Conservation Area.

Summary

As demonstrated within this letter and supporting documents, the works are considered to have an acceptable impact on the character and appearance of the property and Conservation area. The development is therefore in accordance with the aforementioned Development Plan policies, and it is respectfully requested that planning permission is granted.

I trust this letter and the enclosed documents provide you with sufficient information to determine the application but if you require any points of clarification or have any questions please do not hesitate to contact me.

Yours faithfully

Stuart Minty
